

THE WRITING CENTER:

Help for Students

After hours or days writing an essay or paper, even the best student may have trouble catching weaknesses or errors. It can be difficult to edit your own writing. That's when the writing tutors at the **MY TUTOR** Writing Center can help.

Here's how it works:

1. The student goes online and connects to the **MY TUTOR** site and selects the Writing Center.
2. The student specifies his or her grade and the topic of the paper.
3. The student is connected with a trained, expert writing tutor who can help—one-on-one and in real time—right away.
4. The student uploads the paper to the online classroom.
5. The student and tutor discuss the best way to approach the assignment and whether to focus on grammar, content, flow, etc.
6. The tutor reviews the paper with the student, helping the student learn what he or she needs to know to make the paper better.

The Writing Center is available to students in kindergarten to 12th grade and introductory college courses.

GETTING STARTED

Just go to www.ACFCcares.com and click on "MY TUTOR" in the Education/Training section.
